

FOOTBALL PITCH INVESTIGATION

On the diagram, show evidence of your answers.

1. How many rectangles can you find on the pitch?.....
2. How many right angles can you find?.....
3. How many pentagons can you find?.....
4. Find other information from the diagram of the pitch.
5. How many lines of symmetry are there on the pitch?.....

TEACHING NOTES

OBJECTIVES:

- To recognise 2D shapes in various ways
- To recognise right angles
- To recognise properties such as reflective symmetry

Similar resources can be found in UpperKS2 worksheets but with more of a challenge including perimeter and area.

The worksheet can be used to reinforce previous learning about reflective symmetry, right angles and 2D shape.
