POPULATION:

MAJOR LANGUAGES:

MONEY:

BORDERS WITH:

TOURIST ATTRACTIONS:

TEACHING NOTES

OBJECTIVES:

- To be able to explain where places are.
- To be able to compare different places.

Cross Curricular Links: ICT

Give each child/pair of children a country that will be playing in Euro 2012 (the teams can be found on the UEFA website). The aim is to produce a profile card for that country using the worksheet. Show children the websites below and how they can help them complete their profile card.

When these are completed the children can make a class display mapping where all the countries are around a large class map. The quiz below could be used alongside the information they have found or they could make up their own quiz to go with the display.
